DETAILED ACTION

1. The amendment of 24 August 2009 has been noted and made of record.
2. Claims 1-7, 9-13, 15-18, 20, 28-32, 34-36, and 38 have been presented for examination.
3. Claims 8, 14, 19, 21-27, 31, and 37 have been cancelled as per applicant's amendment.

Response to Arguments

4. Applicant's arguments, see pages 9-11, filed 24 August 2009, with respect to the prior art rejections have been fully considered and are persuasive. The prior art rejection of claims 1-7, 9-13, 15-18, 20, 28-32, 34-36, and 38 has been withdrawn.

Allowable Subject Matter

5. Claims 1-7, 9-13, 15-18, 20, 28-32, 34-36, and 38 are allowed.
6. The following is an examiner's statement of reasons for allowance:

The prior art has shown that the polling of a device to determine if it has been removed without authorization has been shown in at least U.S. Patent Application Publication No. 2002/0108058 A1 to Iwamura et al. The prior art has failed to show a polling theft detection device, wherein the monitored devices contain software to download updated or new software and an interface to allow a user to arm and disarm building intrusion detection system separately from a LAN's security features. The prior art has also failed to provide any teaching, suggestion or motivation that would render the invention obvious. Therefore, claims 1-7, 9-13, 15-18, 20, 28-32, 34-36, and 38 are novel and not obvious.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

Art Unit: 2439

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

9. The following patents are cited to further show the state of the art with respect to theft prevention of electronic devices, such as:

United States Patent No. 6,021,493 to Cromer et al., which is cited to show detecting removal of electronic equipment.

United States Patent No. 6,026,492 to Cromer et al., which is cited to show disabling a computer system when a network cable is removed.

United States Patent No. 6,087,937 to McCarthy, which is cited to show indicating that a device has been stolen.

United States Patent No. 6,950,946 B1 to Droz et al., which is cited to show detecting lost or stolen computer equipment.
